

Utility Tips

The most common home water leaks are dripping faucets, worn toilet flappers and faulty valves. Here are some tips to easily identify leaks in your home without the need for tools:

- Check your water meter before and after a two-hour period when no water is used. If the meter reading has changed, you may have a leak
- Place a drop of food coloring in the toilet tank. Without flushing, wait 10 minutes to see if any color appears in the bowl. If it does, you have a leak.
- Observe faucet handles, gaskets and fittings for signs of water outside the pipe that could indicate a leak.

Has it been awhile since you stopped into the library? Here are some reasons to stop by:

- Browse our expanded large print book section!
- Bring the kids and try out the new magnetic blocks. Great fun for the whole family!
- We have many new jigsaw puzzles, books and movies ready for you to check out!

See you at the library!

Upcoming Change

Effective June 1, 2024, Waste Management will no longer be the vendor for recycle collections. The City has approved a bid from Town & Country Disposal (Waste Connections). The last day for Waste Management to pick up recycle will be May 16. This is the same day they will pick up carts. You will be required to have your recycle cart out this day whether you have recyclables or not. Town & Country will be setting a delivery day of new carts also. This has not yet been set.
